

# TT iTAKE Engine Alexa Skill Settings SOP

Go to [www.amazon.com](http://www.amazon.com) and log in use a Amazon account.

Search "Alexa skills TT RGB Plus" and select this skill.

Click "Enable".

The screenshot shows the Amazon skill page for Thermaltake. The page header includes the Amazon logo, a search bar, and navigation links like 'Deliver to Taiwan', 'Departments', and 'Shop Today's Deals'. The main content area features the Thermaltake logo, a 'Free to Enable' badge, and two voice command examples: "Alexa, open Thermaltake" and "use flow mode". On the right side, there is a 'Get this Skill' section with a yellow 'Enable' button highlighted by a red rectangle. Below the button, it says 'Account linking required'. Further down, it states 'This skill needs permission to access:' followed by a bullet point: 'Device Country and Postal Code'. At the bottom of the page, there is a 'Description' section with text about the TT RGB PLUS ECOSYSTEM and instructions on how to use the app.

The skill requires access to the country and postal code that is configured with the Alexa device. Please allow and click "Save Permissions".

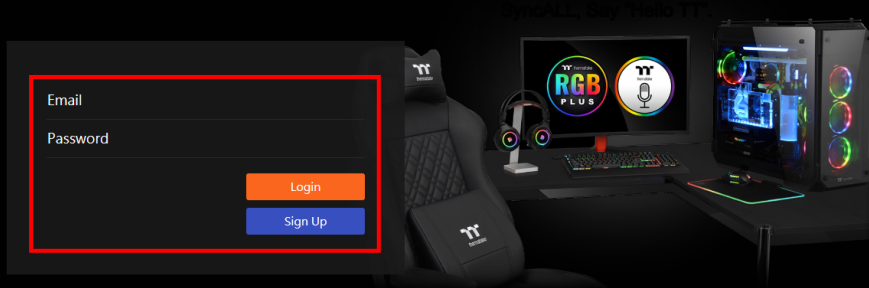

This screenshot shows the same Amazon skill page for Thermaltake, but with a 'Skill Permissions' dialog box open in the center. The dialog box has a title bar 'Skill Permissions' and a close button. The main text inside says 'Thermaltake is requesting the following:'. Below that, there is a section for 'Device Country and Postal Code' with a checkbox that is currently unchecked. At the bottom right of the dialog box, there is a yellow 'Save Permissions' button highlighted with a red rectangle. The background of the page is dimmed, showing the same 'Enable' button and 'Manage this Skill' section as in the previous screenshot.

**Notice** : Please allow this page to show pop-ups, to launch TT RGB Plus "Login / Sign Up" page.

The screenshot shows a 'Pop-ups blocked' notification dialog box. It has a title bar 'Pop-ups blocked:' and a close button. Below the title, there is a list of blocked pop-ups, with the first one being 'https://alexa.ther...ord%3DMK9FH91U095W'. There are two radio buttons: 'Always allow pop-ups and redirects from https://www.amazon.com' (which is selected) and 'Continue blocking'. At the bottom, there are two buttons: 'Manage' and 'Done'.

Login or sign up the TT account.
